TECHNICAL SKILLS

Python Java Machine Learning
Deep Learning NLP TensorFlow Keras
FastAPI Flask Django React.js
PostgreSQL Git GitHub

LANGUAGES

English Tamil Sinhala

SOFT SKILLS

Problem Solving Communication
Teamwork Time Management

Academic Interests

Artificial Intelligence Machine Learning
Natural Language Processing
Conversational AI Speech Recognition
Retrieval-Augmented Generation (RAG)
Smart Agriculture Technologies

REFEREES

Dr. R. Nirthika
Lecturer
University of Jaffna
nirthika@univ.jfn.ac.lk

Dr. J. Samantha Tharani
Senior Lecturer Gr.II
University of Jaffna
samantha@univ.jfn.ac.lk

Professional Summary

Final Year Computer Science undergraduate specializing in Artificial Intelligence, Machine Learning, NLP and Conversational AI. Experienced in building intelligent applications using Python, TensorFlow, FastAPI, Flask, Whisper and LangChain. Interested in Multilingual AI, Speech Recognition, RAG Systems and Smart Agriculture solutions.

Education

BSc (Hons) Computer Science 2022 – 2026
University of Jaffna

- Specialized in Artificial Intelligence & Machine Learning
- Research interests in Conversational AI and Smart Agriculture

Secondary Education 2006 – 2020
Bt/Oddamavadi Fathima Balika Maha Vidyalaya

Internship Experience

Machine Learning Intern – CodeAlpha 2026 – Present

- Developing machine learning applications and training predictive models.

AI / Software Intern – DecodeLabs 2026 – Present

- Building Conversational AI systems, backend automation and webhook integrations.

Projects

WhatsApp-Based Multimodal AI Agronomist & Bookkeeping System

Python • FastAPI • Whisper • Twilio • LangGraph • MCP Tools

- Built a multilingual WhatsApp assistant supporting text, image and voice interactions.
- Integrated speech recognition for Sinhala and Tamil voice messages.
- Implemented AI-powered agriculture advisory and bookkeeping automation.

AI-Based Smart Agriculture & Disease Detection System

Python • Flask • TensorFlow • Keras • Scikit-learn

- Built an AI agriculture system for crop recommendation and disease prediction using deep learning.

Smart Resume Matching System

Python • NLP • Machine Learning

- Developed an AI resume-job matching system with semantic similarity-based ranking and recommendations.

School Database Management System

Laravel • React.js • PHP • Firebase

- Developed a school management platform with attendance, communication and administration modules.

AI-Powered Cricket Analytics Dashboard

Django • React • PostgreSQL • Redis • Machine Learning

- Built a real-time analytics dashboard providing cricket performance insights and live updates.

OCR Text Extraction System

Python • OpenCV • Tesseract OCR

- Developed an OCR pipeline for image preprocessing and accurate text extraction.

Certifications

- Machine Learning Internship – CodeAlpha
- Artificial Intelligence Internship – DecodeLabs
